

SXM SW08PoE

8-channel PoE Switch

Siera Xtreme Mobile is a line of MNDVRs, dashcams, and bodycams with advanced features designed to meet all the needs of the mobility market.

Key Specifications

- 8-channel PoE switch for IP cameras
- Direct integration with MDVR systems
- 6-pin aviation connectors
- Wide range DC 8V – 36V power supply
- Overload, overvoltage, and short circuit protection
- Automatic camera disconnection upon MDVR power loss
- LED status indicators per channel
- Compact design for vehicle installation
- Stable operation in demanding environments

Type:	PoE switch for mobile video surveillance
PoE channels:	8
Camera interface:	6-pin aviation connector
MDVR interface:	MDVR IN
Input voltage:	DC 8 – 36V
Protections:	Overload, Overvoltage Undervoltage Short circuit Reverse polarity protection
Working temperature:	–20 °C to +70 °C
Operating humidity:	20 % – 80 %
Dimensions:	153 × 35 × 121 mm
