

SXM SLA01

High-Visibility LED Audible and Visual Alarm

Siera Xtreme Mobile is a line of MNDVRs, dashcams, and bodycams with advanced features designed to meet all the needs of the mobility market.

Key Features

- Integrated visual and audible signaling
- Multiple lighting modes
- High-power acoustic alarm (up to 105 dB)
- Automatic activation via electrical signal (trigger)
- Wide input voltage range (9 ~ 30V DC)
- High visibility with LED technology
- IP65 protection (dust and water resistant)
- Fast response (< 1 second)
- Simple and versatile installation

Power Supply	
Voltage:	DC 9 ~ 30V
Current:	≤ 130 mA (DC 9V)
Wiring	
Red wire:	Positive power (+)
Black wire:	Negative power (-)
Yellow and green wires:	Activation inputs (control signal)
Lighting	
Modes:	Strobe; Rotating; Flash; Steady light
Available colors:	Red (default); Optional: Amber; Green; Blue
Audio	
Power:	4Ω / 3W
Sound level:	≤ 105 dB (at 1 meter)
Sound modes:	10 configurable warning tones
Volume levels:	6 adjustable levels
Operation	
Activation:	Via electrical control signal through cable
Signal type:	High level (default) Low level (configurable)
Response time:	≤ 1 second
Operating Conditions	
Temperature:	-20 °C to 70 °C
Relative humidity:	10% ~ 95%
Protection:	IP65 (dust and water resistant)
Dimensions:	70 × 50 mm
